

## Major Project EPL 444: Functional Analysis

Score: \_\_\_\_\_ / 100. Do not use any of the space provided, allowed as notes.  
 WITH YOU PLEASE KEEP ALL THE INFORMATION.

## 1. Short answer (10 questions, 10 marks each)

- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)

## 2. Short answer (10 questions, 10 marks each)

- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)

## 3. Single choice (10 questions, 10 marks each)

- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)

## 4. Multiple choice (10 questions, 10 marks each)

- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
- What is the difference between a function and a functional? (2 marks)
